1997 Land Rover Defender D90

_Vehicle History

This Land Rover Defender 90 was built in 1997 originally in Solihull, United Kingdom designed for export with left hand drive specification and 300 turbo diesel engine.

Nelvig procured the car and started the restoration in May of 2023 and completed the full build in December of 2023 as per the specification below.

The car was exported directly to Poland to service in Polish Army Force in 1997 where it remained in operation until 2010. The car remained in Poland ever since in hands of second owner.

The car is currently located in Miami, Florida fully titled and insured in the state of Florida.
